#### REMARKS

The specification has been amended solely to address the sequence listing formalities raised in the subject Notice and letter mailed Dec 11, 2000. The amendment to p.5, replaces the N-terminal residues recited on line 2 with those of SEQ ID NO:6 as referenced. The canceled N-terminal sequences which diverged from the disclosed C. elegans Robo sequence were inadvertently introduced by the undersigned. The sequence recitations of Table 4 and canceled Table 5 on p.11-12 were unnecessary to the invention and their retention would have required a new sequence listing. The text of Table 4 other than the sequence recitations is retained because it is self-explanatory without the sequence recitations and because its cancellation would have required renumbering all subsequent tables. The amendment on p.15 simply provides the correct position in the sequence listing. The amendments to p.30-31 remove consensus sequences which are inherent in the alignments and their retention would have required amendment of the sequence listing. Similarly canceled are the primer sequences of p.36, as these are also unnecessary to the invention and their retention would have required amendment of the sequence listing. This amendment introduces no new matter.

Note that the sequence listing of this substitute specification is identical to that as filed. Accordingly, in lieu of sending a second, identical CRF, the Examiner is requested to use the CRF of record in this application.

The Examiner is invited to call the undersigned if she would like to amend the claims to clarify the foregoing or seeks further clarification of the claim language.

Applicants hereby petition for any necessary extension of time pursuant to 37 CFR 1.136(a). The Commissioner is hereby authorized to charge any fees or credit any overcharges relating to this communication to our Deposit Account No. 19-0750 (order no. B98-006-2).

Respectfully submitted,

- ☐ 2. This application does not contain, as a separate part of the disclosure on paper copy, a "Sequence Listing" as required by 37 C.F.R. 1.821(c).
- ☐ 3. A copy of the "Sequence Listing" in computer readable form has not been submitted as required by 37 C.F.R. 1.821(e).
- ☐ 4. A copy of the "Sequence Listing" in computer readable form has been submitted. However, the content of the computer readable form does not comply with the requirements of 37 C.F.R. 1.822 and/or 1.823, as indicated on the attached copy of the marked -up "Raw Sequence Listing."
- ☐ 5. The computer readable form that has been filed with this application has been found to be damaged and/or unreadable as indicated on the attached CRF Diskette Problem Report. A Substitute computer readable form must be submitted as required by 37 C.F.R. 1.825(d).
- ☐ 6. The paper copy of the "Sequence Listing" is not the same as the computer readable form of the "Sequence Listing" as required by 37 C.F.R. 1.821(e).
- ☒ 7. Other: See attached letter. All sequences not comply

**Applicant Must Provide:**

- ☒ An initial or substitute computer readable form (CRF) copy of the "Sequence Listing".
- ☒ An initial or substitute paper copy of the "Sequence Listing", as well as an amendment directing its entry into the specification.
- ☒ A statement that the content of the paper and computer readable copies are the same and, where applicable, include no new matter, as required by 37 C.F.R. 1.821(e) or 1.821(f) or 1.821(g) or 1.825(b) or 1.825(d).
